***Continuation-in-Part***

1. This application is a continuation-in-part (“CIP”) application of U.S. application no. 09/634149 filed on August 8, 2000 now U.S. Patent 6658394 (“Parent Application”). See MPEP §201.08. In accordance with MPEP §609.02 A. 2 and MPEP §2001.06(b) (last paragraph), the Examiner has reviewed and considered the prior art cited in the Parent Application. Also in accordance with MPEP §2001.06(b) (last paragraph), all documents cited or considered ‘of record’ in the Parent Application are now considered cited or ‘of record’ in this application. Additionally, Applicant(s) are reminded that a listing of the information cited or ‘of record’ in the Parent Application need not be resubmitted in this application unless Applicants desire the information to be printed on a patent issuing from this application. See MPEP §609.02 A. 2. Finally, Applicants are reminded that the prosecution history of the Parent Application is relevant in this application. See *e.g., Microsoft Corp. v. Multi-Tech Sys., Inc.*, 357 F.3d 1340, 1350, 69 USPQ2d 1815, 1823 (Fed. Cir. 2004) (holding that statements made in prosecution of one patent are relevant to the scope of all sibling patents).
2. The closest prior art of record is U.S. Publication No. 2004/0139032 to Rowan, U.S. Patent No. 72634497 to Wiser et al. (“Wiser”) in view of U.S. Patent No. 7099859 to Sundaresan.

As expressed in the Final Rejection mailed November 19, 2007, Rowan, Wiser, and Sundaresan disclose different features of the independent claims. However, these references fail to teach all the claimed limitations. Moreover, the missing claimed elements from Rowan, Wiser, and Sundaresan are not found in a reasonable number of reference(s). Yet even if the elements were found in a reasonable number of references, a person of ordinary skill in the art at

the time the invention was made would *not* have been motivated to include these missing elements in a single embodiment without destroying the system/method.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

"Reporting on the past: A new approach to improving accounting today" to Lundholm discusses eBay's rating system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
